Walk-in Counseling Clinic

This clinic offers walk-in counselling services for youth that are clients of the 360 Kids Organization. The purpose of the clinic is to assist youth that have attainable goals they would like to work towards as well as to offer them coping mechanisms they can use moving forward.

Homework Club

Youth have the opportunity to work on homework assignments with the assistance of a Home Base youth worker.

EMS @ Home Base

York Region paramedics will be on-site from 4-7pm every Tuesday to provide medical services to youth.

Direct Smiles

A mobile dental hygienist will be providing dental services for youth at Home Base once a month.

iGrad

360°kids has partnered with the York Region District School Board to offer continuing education supports for youth looking to reach their academic goals. An alternative education teacher manages a classroom in the Hub Monday-Friday, 9:30am-3:30pm, from September 2016 to June 2017. Students are able to do most courses online through E-Learning which allows them to access their course work through any computer. Intake is on-going so youth are welcome to come in to apply throughout the school months. iGrad is also an opportunity for students to upgrade any courses required for post-secondary education.

Music Studio

Youth are welcome to work on musical projects with our studio engineer by appointment only.

Sexual Health Clinic

Once a month from 4-6pm the York Region Sexual Health Clinic will be at Home Base to offer testing for sexual transmitted infection, pregnancy testing and counselling.

Let's Keep it Real

A weekly discussion group specifically for female-identifying service users between the ages of 13 and 26. Through discussions, team building activities, and outings, Let's Keep it Real aims to create a space for youth to form meaningful friendships, freely express themselves without judgment, and discuss relevant issues affecting female youth in today's climate. Let's Keep it Real will also strengthen participants' communication and leadership skills, and take them outside of their everyday environment, providing experiences that can open up their minds and positively change their perspectives on life.
