

OPUS Homes - Corporate Challenge Testimonial

Last year was OPUS Homes' first time being involved in the 360° kids corporate in-person experience, and what an experience it was! Fundraising for the event was off to a great start for us at OPUS as the support from our family, friends and corporate partners was absolutely incredible. The OPUS team was able to raise over \$42,000.00 in donations, above our toque sponsorship for the event!

Although we knew what incredible work 360° kids does, we didn't fully understand just how much of an impact 360° kids truly has in the lives of homeless youth, until we completed the in-person corporate experience. From the personal stories we heard throughout the night from youth who had connected with 360° kids and completely turned their lives around, to the staff at 360° kids sharing the challenges they witness these youth experience in York Region was truly eye opening. To personally experience a cold night, trying to trade essential items with others in an effort to keep warm and find a meal or a hot drink, helped put into perspective the struggle and challenges these youth experience, right here in our own communities, each and every day. Motivated by last year's eye-opening and successful event, OPUS Homes has decided to provide even more support this year as the Event Sponsor for the 360° Experience!

Our goal is to help 360° kids in their continued mission to reach even more homeless youth in our community, and reminding these youth that they are not alone.
